 2. PLAIN
 3. SOLID METAL

FIRE FIGHTER

Developed in response to a fire at a Great Lakes Port elevator, fire-retardant and abrasion-resistant Fire Fighter is ideal for lining chutes and spouts. Providing added protection to significantly reduce the risk of rapidly spreading flames in your facility, easy-to-install Fire Fighter carries all the resilient, wear-resistant properties of Original Rhino Hyde Blue.

WHAT MAKES FIRE FIGHTER TOUGH TO BEAT:

- // Self-extinguishing - won't fuel or propagate a fire*
- // American Standard Testing Measures (ASTM) E84-05 Class II credential**
- // Resists impact and abrasion
- // Specially cast in vertical molds to ensure uniform thickness
- // Backed by 12 years of research and development
- // FDA compliant for dry bulk food material handling
- // Outperforms most plastics and metals in high-impact applications

POLYURETHANE
 PRODUCTS
