

FLUME LINER

Having issues with fine material build up, eating through your steel and leaking water everywhere? Rhino Hyde Flume Liner made of polyurethane reinforced expanded metal and finger guards, our Flumes Liners feature a rigid one-piece construction. Our self-supporting Flumes Liners are specially designed for lining chutes, gravity open channels, and other applications with water and fine particle mixtures.

WHAT MAKES OUR RHINO BLADE TOUGH TO BEAT:

- // Custom made to fit your application
- // Highly resistant to cuts and tears
- // Quick install
- // Reduced maintenance
- // Longer wear than steel
- // Custom made to fit your application
- // Reduces downtime, labor costs and waste
- // Rugged enough to handle heavy wet loads
